

ERRATUM

1. PRICING SCHEDULE

Any alterations to the tender documents should be signed in full by the tenderer's authorized signatory. Failure to observe this might disqualify the tenderer. Any completion of the tender document in pencil or erasable ink will not be accepted and will lead disqualification.

Should there be any additional charges required in line with the scope of work that might have been omitted on the schedule; the bidder is allowed to submit an additional pricing addendum other than the provided pricing schedule. That additional pricing should be added on the total tender price.
